

MCSM – On the Road Again...

Montgomery Citizens for a Safer Maryland regularly attends local events, in the case for the photo at the right, it was the Silverado Gun Show at the Howard County Fair Grounds.

At every show and event there is a different and contemporary issue to be presented. Being in the midst of three Women On Target events, that issue was promoted. About 30 WOT flyers were distributed to interested parties and one lady signed up at the show. The first two events, rifle and pistol events, were sold out and the October Shotgun event was the subject of this promotion. When finished the three events will have coached about 100 ladies in rifle and pistol or shotgun shooting

The next event is another gun show in the Carroll County Agricultural Center in Westminster, MD. If you are interested in attending and helping at any event, send a message to MCSM by the web link at; <<http://www.mcsm.org/email.html>>

In any year there are eight or more gun shows and several other events where you can help at the MCSM information table, you can meet some like minded individuals (or those needing a little guidance like at Takoma Park), have an enjoyable time and help spread the firearm friendly word.

Get Active, Have Fun, Contact MCSM.
